

LONDON NOTICE No. 3466

ISSUE DATE: 30 June 2011
EFFECTIVE DATE: 30 June 2011

ROBUSTA COFFEE STOCKS IN ANTWERP**Executive Summary**

This Notice informs Members of the Exchange's determination concerning 469 Lots of Robusta Coffee in the Port of Antwerp following their temporary suspension pending assessment for water damage.

1. London Notice No. 3450, issued on 8 June 2011, informed Members that a Nominated Warehouse in the 3 Ways area of Antwerp, Warehouse ANT192, sustained considerable damage to its roof as a result of adverse weather conditions on Monday 6 June 2011.
2. While Exchange staff worked with the Warehousekeeper on site in order to confirm the extent of the damage to the Warehouse and to the goods contained therein, it was determined to suspend the certification of the 469 Lots of Robusta Coffee stocks stored in the shed.
3. Following completion of a survey of the goods, a total of 16 Lots of Robusta Coffee, stored underneath the area of the damaged roof, are considered by Exchange staff to be water damaged and it has determined that the certification of these Lots be terminated.
4. Following further investigation of the remaining 453 Lots, 380 have been identified as being undamaged and have had their grading certificates re-instated. These Lots are now stored in another Nominated Warehouse owned by the same Warehousekeeper.
5. For the remaining 73 Lots, which were partially affected, an exercise was undertaken to remove any water damaged bags with each Lot then being re-piled and re-weighed to determine whether or not the Lot remained within the weight tolerance required under the Contract Specification. 67 of these Lots continued to meet the weight tolerance required and therefore the certification of these goods has been restored, whereas the remaining 6 Lots no longer meet the minimum weight requirements and therefore the Exchange has determined that the certification of these 6 Lots be terminated.
6. The resulting change in stock levels will be reflected in the fortnightly stock figures due for publication on 30 June 2011.
7. Warehouse ANT192 remains suspended from the List until the appropriate repairs have been made.
